

Colors are all are graphics should all match the current app designs for both Empowerment and Mind Spa

Screen 1 is what we now have but rather than register – it says “I am new to Zygon”

Create your account is different and we are making it much easier for a user without phone verification and adding social media log in

After they register they get a welcome letter, which is modifiable in the back end. They hit the enter button and it takes them to the orientation sequence.
